MODMED

MV Panel Cassette Type Basic Kit

STANDARDISED

COMPLIANT

SYSTEMATISED

MODUTEC MV Basic Kit, range of MODMED is an indoor switchgear flat pack assembly that provides maximum user safety, simplicity and reliability during installation, operation and maintenance. It meets all electrical distribution needs up to 11 kV and incorporates a set of innovative solutions.

With the combined experience of the MV Switchgear manufacturers and MODUTEC, we are now offering our MODUTEC Basic Kit with Type Test Certification/ compliant to IEC 62271-200. We have developed draw out mechanisms, shutter assemblies and different types of spouts with investment in R&D, dies and fixtures for different makes of MV Switchgear.

MV 11 KV BASIC KIT

TYPE TESTED

ACCESSORIES

Based on MODUTEC Panel Partner requirement a Basic Kit is either supplied as is ready with Schneider make of EasyPact / Eaton make VCBs or customized to suit the specific make requirement with

Salient features of MODMED

- ➡ Safety, Simplicity, and Reliability
- ➡ IEC 62271-200 Verified
- ➡ Draw-Out Mechanisms
- ➡ Compatible with Schneider EasyPact / Eaton VCBs
- ➡ Suitable for Indoor and Outdoor Use
- ➡ Internal Arc Design with Exhaust Flaps Available
- ➡ Top or Bottom Cable Entry
- ➡ Modular Flat Pack Design
- ➡ Electrical Ratings:
 - 4,000 A / 40 kA for voltages up to 11kV
 - 2,500 A / 31.5 kA for voltages up to 11Kv
 - 1,250 A / 26.3 kA for voltages up to 11kV
- ➡ IP4X Degree of Protection
